

Bonnie Doon Vision Zero Street Lab Installation

The City of Edmonton has determined the need for an additional phase to the existing Street Lab in Bonnie Doon, which uses adaptable traffic calming measures to address safety concerns.

Community Traffic Safety Concerns: What We Heard

During the summer of 2022, community residents conducted public engagement to gather community expertise about lived experiences and traffic safety concerns. The engagement summary is available on engaged.edmonton.ca/BonnieDoonStreetLab.

Street Lab Plan

Phase 1 (implemented in 2022 - to remain in place): Last year, curb extensions were installed at 88 Avenue between 91 Street and 92 Street, and at 92 Street and 93 Avenue.

Phase 2 (implemented in Spring 2023 - to remain in place): Earlier this year, curb extensions were installed on 92 Street at 90 Avenue and 92 Avenue.

Phase 3 (to be installed by October 27, 2023, weather and resource permitting): Based on the feedback from residents and learnings to date, the Phase 3 Plan was designed as outlined in the table below. Any updates to the installation timeline will be posted on engaged.edmonton.ca/BonnieDoonStreetLab and emailed to subscribers.

Installation and Location	Benefit	Photo of Adaptable Measure
What We Heard Residents shared concerns of speeding and pedestrian safety along 88 Avenue. What We're Installing Curb extensions will be installed at the following locations: • 88 Avenue between 85 and 87 Street • 88 Avenue between 91 and 92 Street	Curb extensions slow driver speeds by narrowing the road. The curb extensions will be approximately the size of a parked car!

Next Steps:

We are currently reviewing community resident feedback on phase 4 of the Bonnie Doon Street Lab which involves a traffic diversion pilot. Visit engaged.edmonton.ca/BonnieDoonStreetLab to sign up for project updates.

All phases of the Street Lab will be evaluated together once complete. As these installations are adaptable, they may be adjusted based on future evaluation learnings.

If you have questions about this project, please email saferoads@edmonton.ca.
